

GMK Interiors is pleased to announce the promotion of Christie Richardson NCIDQ Certificate Number 026209 to director of design. For seven years she has been an interior designer with the company, serving as design project manager for several of the firm's largest clients, including Cascades at Verdae (Greenville, S.C.), Southminster (Charlotte, N.C.), Scotia Village (Laurinburg, N.C.) and most recently Cypress of Charlotte (Charlotte, N.C.). Christie also is a member of GMK's Operations Committee, the company's operational management team.

Her unique talent in interior design has taken GMK Interiors to heightened acclaim in the retirement and hospitality industries and has been instrumental in the growth of the interiors division and GMK's long-term success.

In her new role, Christie's responsibilities include leadership of the design staff, staff training, team continuing education, proactive research and industry involvement to bring the most trend-setting tools and resources back to GMK, and a more active public speaking role at state and national education conferences.

We look forward to celebrating Christie's vision, passion, talent and strong leadership with our clients, as she diligently works to elevate design standards both at GMK and industry wide.
